HE DENIES EVERY CHARGE

Complainant Accused of Garbling the Letters to the Treasury Filed With His Suit-Passages Omitted Which Place Him in Another Light-His Answer in Detatl.

In the suit brought by William Graves in he supreme court of the District of Coumbia against the Secretary of the Treas ury, in which beclaims that he was, through the unlawful and hostile action of the Treasury Department orficials, prevented from securing \$4,500,000 of the recent issue of 4 per cent bonds, Mr. Carlisle yesterday filed an affidavit showing his side of the case.

The affidavit charges Graves with with holding from the court a full recital of the facts and with attempting to create wrong mpressions by false recitals and by gar bling correspondence.

bling correspondence.

The main ground of Graves' complaint was that he did not promptly receive notice of the acceptance of his bid because it was simply directed to him at New York, and that by reason of this, and the refusal of the Secretary to extend the time for depositing the first installment of gold, he was wrongfully deprived of the benefits of his contract.

benefits of his contract.

GAVE NO SPECIFIC ADDRESS.

Mr. Carliste states that Graves' bid give no address other than "New York, N. Y.," that while in the body of the bid he named two places for delivery of bonds, he gave no special address; that the acceptance was mailed in Washington on February 9, with the address given at the head of his proposal, and that this was received at the New York Postoffice on February 10, that publications were made in the New York papers and papers generally throughout the country on February 10 that he was a successful bidders; that Mr. Graves knew on February 10 that he was a successful bidders; that Mr. Graves knew on February 10 that he was a successful bidders; that Mr. Graves knew on February 10 that he was a successful bidders; that we was second bidders, and sent a telegram to the department on that day showing this fact; that a duplicate of the notice of acceptance was sent as soon as he wired his special address and was received by him February 11, which was four days before he was required to make any payment; that on February 13 Mr. Graves made an application for an extension of time on the ground that the first notice was misdirected causing a loss of two days, but stated distinctly in such appliaction that, not withstanding the delay he was prepared to make his deposit on February 15.

GRAVES SECOND BID.

Mr. Carliste's affidivit further recites that Graves, after be failed to get an extension of the time for payment or to get the bonds sent to New York before payment, made a second bid on February 15 of 1.13 1.2 for all bends that the Secretary might consider for detault on that date, including those awarded him on his first bid. No reference to this new bid is made in his petition. GRAVES' SECOND BID.

The copy of the original letter given in the affidavit contains the following.

"I enclose to Mr. Nallor the sealed letter from you that you may see it, because of this delay, caused by a clerical error, I could not get my gold from the bank of California, to whom I referred you, until I produced the letter of acceptance from you; then bonds went down and I could

IN THE SALOON.

Cabman John Belli testified to bringing a girl from the depot to the Palace Hotel in Cincinnati. He took a letter to Jackson from her. Identified the bloody valise as one carried by the girl. Bave Wallingford, the saloankeeper, testified that Jackson came to his place with a girl on the night of the murder and borrowed \$2 from him. Identified the dress and hat as the ones worm by the girl.

Wallingford said that on the Friday evening of the murder Jackson came out to the bar from the wine room, ordered a sarsaparilla for the lady and whisky for himself. "The porter took the sarsaparilla back to the lady and Jackson drank at the bar and I drank with him. Jackson then borrowed \$2, saying he was going for a drive."

NO HOPE FOR PRISONERS

Spanish Commanders Are Expected to Shoot Insurgents Who Are Wounded or Without Arms, and to Count Them as Killed in Battle-Executions Made of Prisoners.

Special Correspondence United Press,

Havana, April 22, via Tampa, Fla., April 24.-Gen. Weyler is satisfied that noth belligerency may be looked for from Washington, at least for the present, and the public executions of prisoners of war which very suspended for a time have been re-

There is supposed to be a general understanding among commanders of Spanisl

standing among commanders of Spanish columns that no prisoners are to be taken in engagements in the nead. All Cutan patriots who fail into the hames of the troops through being wonned ear from other causes are liable to be shot at once and counted with the number which in battle.

Some of the Spanish commanders act according to this naderstanding, but others decline to slay obtained or wounded men, and deliver their prisoners to tien. Weyler in Havana. Many of these so-called prisoners of war never carried a gun or engaged in battle, but were taken from plantations or from small town and hamlets in the interior, where the Spaniards assume that all men are rebels, and are not far from being right.

rescue before reaching the city, and mob-violence afterward. The lower class of violence afterward. The lower class of Spaniards gather about each batch of prisoners and clamor for their blood, as they pass through the streets to the ferry to Cauanas fortress or Morro Castie. The court-martial before which the prisoners are tried is a perfunctory affair composed of five military men who order the death penalty under Weyler's decree that all insurgents are bandits and incendiaries and deserving of death. The prisoners have no opportunity to make a defense and all Cabans in the rebelarmies know that capture means death.

Most of those brought in, it seems, have been wounded, cut off from their columns, or caught without arms. When condemned to death they are given twenty-four to forty-eight hours to prepare for the end. They are given what they want to eat, and are placed in the chapet at Cabanas fortress with priests in constant attendance for the last twelve hours.

THEY DIE BRAVELY.

THEY DIE BRAVELY. Most of the Cuban patriots who have paid the extreme penalty since Weyler has been here have died bravely. I saw three of them meet their fate last Friday

three of them meet their fate last Friday morning. They were Jose Barcallao, and Estiva Hernandez, white; and Gregoro Barcallao, colored. During the night before the execution Barcallao made several feigned attempts to escape from the chapel, noping that the guards would shoot him down, preferring that to death in public. The guards forced him back each time without lifting ab him.

I crossed the bay a few minutes after 6 o'clock on the morning set for the execution. It took place promptly at 7. The three men. escorted by a file of soldiers and supported by an order of lay brethren of the Catholic Church, were taken from the chapel to a space between the outer and the inner walls and at the eastern end of the fortress.

The place is part of a dry moat which extends around the three land sides of the fort, and is from 100 to 150 feet wide. It is out out of the solid rock. On the level bed of the moat a battallon of Spanish regulars formed three sides of a square. The fourth side was the main wall of the fortress. In front of that the prisoners with arms tied behind their backs were led.

of the rebels. Most of them-were Spaniards.

On the walls of the fortress two or three hundred soldiers were grouped where a good view could be obtained. I heard no expressions of pity from spectators for the men who knelt with the priests and prepared for the end. A young heatenant of the guard, who was ordered out to do the shooting, however, asked to be excused.

He was a Cuban serving in the Spanish army. Another officer took his place. The men knelt facing the wall, and with their backs toward the firing squad. They showed no signs of flinching. A file of twelve soldiers was drawn up about ten paces away. Four men were ordered to aim at each prisoner.

There was an interval of silence when all was ready. An officer raised his sword, there was a rattle of musketry, and the men fell forward on their faces. Hernandez and Barcallno showed signs of life. A sergeant, with his revolver, gave Hernandez an extra shot, the "Tirode Gracia" as it is called. He was obliged to fire twice at Barcallao before it was over. The lay brothers carried the bodies to Havana, and buried them in the pauper burying ground.

Dr. S. S. Moffatt, a physician of this city, was instantly killed by a Columbia electric car this morning at 1:20 o'clock, at Tenth street and New York avenue.

street and New York avenue.

His body was shockingly mangled, On the doctor's person several letters were found, each nearing different places of residence, such as Johnston Botel, 911 Sixteenth street northwest, and others. The most reliable account of the manner of his death is that he lay down or reil across the track at the pance indicated, and that the car rolled over him, the prostrate form having been unnoticed by J. H. Atwell, the gripman of the car, No. 27. The body was crushed and mangled terribly. The head was almost unrecognizable from its many wounds and the clotted gore.

CUT TO PIECES.

The car was represented the prostrate man, then the iron apron, and the mysterious part of the accident is that the wheel guard, which usually falls when the apron h struck, was not arrested by the body. The body went under the wheel guard and then the wheels got in their fearful work.
